1. Find a clean, level surface to begin the assembly of your game table. The table will be partially assembled upside down and then turned over onto its legs. This is a heavy game and turning it over will require at least two strong adults.
2. Remove all of the contents from box and verify that you have all of the parts shown on the Parts Identifier before you begin assembly. **Note: Some parts may be pre-installed or pre-assembled.**
3. Some figures or drawings may not look exactly like your product. Please read and understand the text before beginning each assembly step.
4. When installing parts that have more than one screw or bolt, hand tighten all screws or bolts in place before finishing tightening with screwdriver or hex wrench.
5. Electric screwdrivers may be helpful during assembly; however, please set a low torque and use extreme caution because screws may be stripped or overtightened if the electric screwdriver's torque is set too high.

READ AND FOLLOW ALL ASSEMBLY, OPERATION AND SAFETY INSTRUCTIONS CAREFULLY.
